

AUCA OF LEARNING FROM HISTORY TEAM

In November to Austria travelled the team,
to discuss about deportation, exile and what it means

Mauthausen is a small town in the north,
where it combines the sacred and the pagan both

Andrea What was the great organiser of the event
that made possible that all of us went

Valerie and Judith made us play
with chairs, colours and big displays

The two of them were always alert,
that we were following the timetable
everywhere

The Empoli group came with their stories
that made all of us share our memories

There were music and big meals prepared
fish, wonderful cakes and very good bread

We walked around St. Georgen town,
visiting schools and firemen up and
down

Andrea Molesti sang like a Partisan,
songs of love, pain and peace in our hands

Daniel was an exceptional guide in the
concentration camp,
Giving us the time and the knowledge to
understand

Il Castello was our bastion every evening
to share stories, drinks and all that it had
meaning

Christoph Mayer created the Audio Gusen Trail,
a deep experience about human pain and ail

Jordi Galí was our young teacher of history that learned and taught eagerly about democracy

Visiting the concentration camps, we learnt about despair, survival and faith

Reflexions were our homework to be done developed in a creative environment every time

We learned, walked and enjoyed every time all the discussions and visits having a great time

Looking forward to our next meeting we are so our farewell it's only a see you later not so far
